

VŒUX

*I am the Dawn of a great new day
Full of sunshine and Peace
Scatter the good seeds on your way
That tumult and strife may cease.*

The greeting above is sent to all friends participating in the Olympic movement of the World, leaders as well as athletes. Let us hope that during coming years the Olympic Games will be held every four years undisturbed of warfare and that good-feeling, friendship and brother-hood of men may reign the world.

With that hope I send you all my best wishes for a peaceful Christmas and a Good New Year 1947.

J. Sigfrid Edström.
