

## Misuse of Olympic emblems

It has come to the attention of the International Olympic Committee that the term « Junior Olympics », or « Junior Olympic Games » has been adopted by various organizations and individuals to apply to athletic contests of various kinds, good, bad and indifferent.

These promoters are capitalizing on the prestige of the Olympic movement.

The indiscriminate use of the Olympic name and insignia will lead only to a lowering of the prestige of the Olympic movement. All National Olympic Committees are requested to stop this misuse of Olympic words and insignia.

In countries where protection is granted by law, steps should be taken to prohibit events of this kind.
