

Protection of the Olympic Emblems in Hungary.

The Hungarian Olympic Committee has informed the International Olympic Committee that the Cabinet of the Democratic Republic of Hungary has taken the decision to forbid the use of the Olympic Emblems (Olympic Terms and Rings) for commercial purposes or to other ends which have no connection with Olympism. The emblems can only be used when the authorization has been obtained from the National Physical Education and sport Committee which must previously ask the advice and consult the Hungarian Olympic Committee on the matter. It is worth recording the fact that no abuse of that kind has ever taken place in that country in the past, this in itself makes the decision taken by the Cabinet on the matter all the more valuable.
