**The VIIIth Winter Olympic Games of Cortina
surveyed by The German Olympic
Committee**

Although it was published so soon after these Games, this splendid book is a type of work which all lovers of Winter sports

ought to have in their library. The publishing firm is the "Deutsche Olympische Gesellschaft" which contrived to secure the services of competent collaborators, experts and reporters. The supervision of this work was entrusted to Prof. Dr. Carl Diem, whose qualifications are well known and

who possesses a thorough understanding concerning Olympic matters. This publication contains more than 100 plates illustrating the splendour of the Cortina Games.

Report on the IInd Asiatic Games

This report has just been published, bound and profusely illustrated with excellent plates. It is compiled and produced by the Philippines Olympic Committee at Manila. This report recalls all the chief events and also gives an excellent description of the various stages of the preparation of the Games as well as their organization and celebrations along with a complete history of the Asiatic Games.

All the technical results are also recorded. We are anxious to congratulate the authors of this book, making a special mention of the Hon. Jorge B. Vargas, President of the Asiatic Games Federation, member of the International Olympic Committee for the Philippines as well as the Hon. Antonio de las Alas, President of the Organizing Committee, as both are doing their utmost to promote the development of amateur sport in their part of the world.

List of useful Sports Words

That book, containing the *List of useful words concerning the organization of Winter Sports* has been published on the occasion of the VIIth Winter Olympic Games by Federico Terschak, Edition PAIS, Piazza dei Sanniti 9 at Roma. This dictionary which contains the terms of general character used at Winter sports has appeared in English, French, Italian and German. Over and above its practical use, it is hoped that it will be a means to bring together those coming from far off countries. Through the terminology of sport, it may contribute to the mutual comprehension and fraternal understanding which spring from common ideals and which the Olympics express and exalt.

The competence of the author as regard to Winter sports, is internationally admitted and this alone contributes to the seriousness

and the practical side of this book. We recommend it warmly to all those concerned with Winter sports organizations.

White Olympiad
