

## The Olympic Family

We have pleasure in announcing the birth of Anne-Olympia, daughter of Mr. Albert Mayer, member of the International Olympic Committee. The birth took place during the Melbourne Olympics. On behalf of the Committee we wish to congratulate the parents and convey our best wishes for the happiness and prosperity of little *Olympia*.

### † Mr. Sadry

Mr. Sadry, one of the Directors of the Iranian Delegation to the Melbourne Games, who attended the Opening Ceremony on November 22nd, was taken ill suddenly on his way to his hotel where he died soon afterwards. This sudden death caused a deep emotion within the Iranian team and was felt by all the people who had the privilege to know this sympathetic directive power and supporter of sport in his country. We wish to convey the expression of our deepest sympathy to the Iranian Olympic Committee.

### † Dr. Walter Kolb

Last August, the city of Frankfurt gave an imposing State funeral to its Lord Mayor, Dr. Walter Kolb. He held the function of vice-president of the International Gymnastics Federation and he was one of the promoters of the revival of the post-war German Gymnastics Federation, of which he became the esteemed and most popular leader. He was a member of the German Delegation who, at Lausanne in 1946, put in a plea for the reinstatement of the German delegation in the Olympic Programme. The 'Deutsche Turnerbund' mourns today its leader. We recall with deep feeling the memory of Dr. Walter Kolb and wish to convey to the 'Deutsche Turnersbund' and the International Gymnastics Federation the expression of our deepest sympathy in their great loss.
