

ERRATUM

**Concerning the technical results published
in our last issue of Bulletin No 57**

An unfortunate mistake found its way in the list, page 15 of our last Bulletin, when it mentions that no bronze medals have been awarded in Boxing. It is of course a misunderstanding in view of the fact that for each event, not only one but two bronze medals were awarded to boxers who were placed third— this means that a total of twenty bronze medals have been awarded for Boxing. We wish to convey our apologies for this error which crept in through no fault of ours and beg to be excused by our readers and more particularly by the Fédération Internationale de Boxe Amateur.
