

Detained in Lisbon

Dr. Ferreira Santos sailed from Sao Paulo when intending to attend the Session in Sofia last September. The President of the International Olympic Committee had instructed him to investigate the position of Olympism which is prevailing in Portugal at the present time. Dr. Santos while in Lisbon, was detained by illness for a period of about ten days. He fulfilled the mission assigned to him in Portugal but was unable to rejoin his colleagues in Sofia. We wish to convey to him our best wishes for a speedy recovery.
