

BIBLIOGRAPHY

OLYMPIAD 1960

Thanks to the initiative of the Italian National Olympic Committee (C. O. N. I.) and under its supervision, the Italian State's Tourist Department (E. N. I. T.) has just published a magnificent book of propaganda in favour of the Games of the XVIIIth Olympiad which is to be celebrated in Rome in 1960. It is almost impossible to describe such a first-rate work which consists of 120 pages of text with fully illustrated coloured plates, a book which links Ancient Times

with the Modern Era of Olympism and the Fine Arts. This book is prefaced by Mr. Gronchi, President of the Italian Republic, Mr. Amintore Fanfani, President of the Cabinet, and by Mr. Urbano Ciocchetti, Mayor of the City of Rome.

Fascinating texts are to be read in this work, the first one is entitled : *From Athens to Rome* and its author is Giulio Onesti, president of the Italian National Olympic Committee.

We wish to congratulate 'l'Ente Nazionale Industrie Turistiche', (Via Marghera 2, Rome) for this excellent publication and the Italian National Olympic Committee for having been the promoter of this splendid achievement. This work – and, it is indeed a work of art – has been printed in a first edition consisting of 60,000 copies which is published in French, English, Italian, Spanish and German.
