

SETTING MATTERS RIGHT

In the last issue of our Bulletin No 66, we reproduced some quotations of an article which we entitled: *Concerning Scholarships in U.S.A.* In the fifth paragraph, among other things, we referred to FOOTBALL as having been chiefly responsible for earning the reputation of pseudo-amateur to the American student. We ought to have specified that this applies to *American* football and has nothing to do with the game as generally practised which is under the control of the F.I.F.A. We wish to make this point clear and to do F.I.F.A. justice.
