## THANKS TO THE ITALIAN NATIONAL OLYMPIC COMMITTEE

Limited space prevents us to relate at length the Conference of the Executive Board of the International Olympic Committee with the representatives of the National Olympic Committees, this was held in Rome last May. In other respects, we are publishing in the present Bulletin, the Minutes of this Conference which turned out a great success. We wish to make a special mention of the faultless organization carried out by the Italian National Olympic Committee presided over by its distinguished President Avv. Giulio Onesti assisted in his task by an efficient staff, the names of which are known to us and need not be published here. The Delegates were given the opportunity of inspecting all the installations either completed or in the course of being built. As the irrefutable proof of the perfection of these installations, no comments were passed in connection with them in the course of the Conference except that of praise and warm congratulations extended to the organizers of the XVIIth Olympiad of next year. A banquet held at

the Casino des Roses at the Villa Borghese brought together all the delegates attending the Conference who will carry home a pleasant remembrance of the hospitality given them. Many thanks to our Roman friends who, in a most discreet manner, contrived to give us an inkling of what the coming Games are going to be.
