

A the Olympic Museum in Lausanne

Thanks to the sportsmanlike understanding of the Municipality of Lausanne, the Olympic Museum has been enlarged and has acquired two new halls. This necessary addition was imperative to cope with the growing expansion of the Museum. We wish to express our sincere gratitude to the Lausanne Municipality for its generous gesture.

*

The Baroness de Coubertin has just presented the International Olympic Committee with a set of leather-bound manuscripts belonging to the Renovator of the Games. These valuable documents, which are unique, since they are the original manuscripts of Baron de Coubertin, have been put in a special library of the DE COUBERTIN HALL. We express our grateful thanks to his widow for her generous gift.
