

List of addresses

As a result of the many requests which have reached us concerning the list of members of the International Committee, which appears regularly in our Bulletin, we have returned to our original system, that is to say an alphabetical classification of the countries to which our members belong. This new list is followed by a second one, where the names of members figure in order of protocol, that is to say according to the date of their election to the Committee. In this way it is hoped to satisfy everyone.
