Encyclopaedia of the Winter Olympic Games

Erich Kamper, Graz, Austria. Union Verlag, Stuttgart. A work of 291 pages in German, English, French and Swedish which gives all necessary information, classifications results, etc. of the Winter Games from 1908 to the present day. A supplement dealing with the Innsbruck Games will be given free to all subscribers. Price 73.50 Swiss francs. This book has necessitated fifteen years of the most careful research by the author in order to finish a complete work which is indispensable to all those interested in the Winter Olympic Games. The author is a sports editor. (Address : Anton Mell Weg 23, Graz - Neuhart, Austria.)

The Basic Principles of the Book

- * The history of the Olympic Winter Games of all the 42 countries that have participated in them since 1908 has here been compiled in complete statistics of highest accuracy.
- * For the first time the early history of the Olympic Winter Games has here been studied from authentic sources.
- * More than 4,000 competitors, male and female, in clear lists showing their placings.
- * For the first time an alphabetical list of all winners of medals in Olympic Winter Games.
- * Summary tables for the individual Olympic Winter Games show which countries have participated in which competitions.
- * The ages of the competitors in the Olympic Games giving statistical information about the age structure.
