

OLYMPIC PHILATELY

For the stamp collectors, on the occasion of the International Stamp Exposition of Barcelona, the Spanish Olympic Committee under the presidency of Mr. Juan Antonio Samaranch, member of the I.O.C. has published a comprehensive work in Spanish, French, English, "Sellos Olimpicos", an original book on sport philately. The collections of all Olympic Games from 1896 in Athens down to 1964 in Tokyo, enables one to bring the Games to life once again. Moreover, as a piece of art, this book is a remarkable essay on Olympic philosophy.

\*\*\*\*\*

Jacqueline Caurat, charming announcer of the French Television has recently published an extremely well documented and illustrated album under the title "The Olympic Games through postage Stamps". (1)

A text tells the history of the Olympic Winter Games and coloured figurines enable us to follow the competitions from Chamonix to Grenoble.
