

FELLOW OLYMPIANS

Fellow Olympians, tried and true are we,
Onward we march, on to Victory.
When the going is the hardest, then
We try our darneest, not forgetting
That Sportsmanship is greater than Victory !

Fellow Olympians, all races, religions, and beliefs,
We compete for our countries on friendly fields of strife.
Judged by our many feats, in victory and defeat, for this is
The Olympian Way of Life !

Fellow Olympians, friendship is our guide,
Passport amongst our nations, and the world, wide.
Honour the competitor, with fervent respect for all,
This is our timeless creed, welcome one and welcome all !

Fellow Olympians, from every breadth and clime,
We have indeed passed the severest tests of time.
When the sun comes up, 'till the moon goes down,
We Olympians will always wear the crown... for
The Olympiad goes on and on, hand-in-hand,
Like the roaring ocean, like the aged land !
