BOGENSCHIESSEN. OLYMPISCHE DISZIPLIN (Archery. Olympic Event) by Frantisek HADAS. *Publishers: Copressverlag, Schellingstrasse 39-41, 8 Munich 13. Text, German. 206 pages.*

This book will attract beginners as much as experienced archers. Having the plot of a biographical novel, enlivened with stories which marked the fruitful sportive career of Frantisek HADAS, seven times world champion it is a valuable technical aid, illustrated with photographs showing the uprightness of position and movement.

ESCRIME MODERNE (Modern Fencing) by Pierre THIRIOUX. *Publishers: Amphora, 14 rue de l'Odéon, Paris 6. 397 pages. Price: 38.30Fr.*

It is a type of breviary of the three weapons. Everything one needs to know about fencing is analysed, dissected with precision and clarity. Dr. Pierre THIRIOUX allows readers to profit from his twenty years' service to French fencing.

THE GUIDE TO BRITISH TRACK AND FIELD LITERATURE 1275-1968 by Peter LOVESEY & Tom McNAB. *Publishers: Athletics Arena, 325 Streatham High Road, London S.W.16. Price: 25 Shillings.*

For how long have athletics existed in England? The authors tell that the first encounter is described in the tale "Havelock the Dane" of 1275. Thus began English athletic literature...862 headings, a very complete reference book concerning titles and dates.

CHEVAL 70 (The Horse 70) by Jean CORHUMEL & L. GHESQUIERE. *216 pages. Price: 75 Belgian Francs or 8 French Francs - from Mrs. L. GHESQUIERE, 2 rue de la Gare, Brussels 1040.*

This is a handy manual of sporting equitation, abundantly illustrated, which cannot fail to interest all horse-riders. Price-lists schedules, full history of world champions and diverse press reports are all recalled therein. The work is prefaced by Colonel Raoul MOLLET, President of the Belgian Olympic Committee.

LE COEQUIPIER (the Team-Member) by Jean-François JACOB.
Publishers: Robert Laffont-Paris.

By reason of his actual experiences, Jean-François JACOB revives for readers the very special and passionate atmosphere of rallying. This is also an excellent introduction to road trials which, with the author's practical details, will be a valuable aid to the beginner.

INITIATION AU PATINAGE (Introduction to Skating) by René MOYSET. *Publishers: Bornemann, 15 rue de Tournon, Paris 6. Price: 5.60 French Francs. 60 pages.*

Everything about skating: history, equipment, tuition, skater's glossary, list of French skating-rinks, etc...

SPORT & SOCIETY - ELISABETH TO ANNE by Dennis BRAILSFORD.
Publishers: Routledge & Kegan Paul. Price: 45 Shillings.

This is a work of great scope which lightens a dark enough period in the history of sport. It shows how the 17th century saw the rebirth of mind and body and studies the influence of puritanism on sport until the 19th century. Its reading is recommended particularly to physical education students.

DOPING, LES SURHOMMES DU VELO (Doping, the Superman of Cycling) by Roger BASTIDE. *Publishers: Solar, 8 rue Garancière, Paris 6.*

This is not only a complete study, at the same time human and medical on doping, its effects, its deep motivations, its remedies, its social continuation, but also an unusual picture-gallery of all the "supermen of cycling", of heroes from the beginning of the century until today.

LEXICON DES SPORTS (Dictionary of Sports) by Alfred PETERMANN. *Publishers: Buch & Zeit, Cologne. Price: 12.80 DM. 640 pages.*

More than 4,500 words and expressions are explained, and defined. 24 sporting events: their history, regulations their most celebrated representative, the Olympic Games (ancient & modern).
