

# MUNICH

\* The Mint in Stuttgart is working at full capacity: Shortly, the second series of the DM 10 coin, designed with two arms intertwined plus the inscription "Munich", will be sent to the Federal Bank. Stuttgart will mint 2.5 million coins in all and the same number will also be minted in Karlsruhe, Munich and Hamburg. These new coins will be put into circulation. There is no use writing to the Mint to obtain these coins: they will only be distributed by the banks and savings banks. The minting of the first series of DM 10 coins, with the Olympic spiral, is completed and a total of 10 million has been placed on the market. The third series of DM 10 coins will be minted during the second half of the year and made available for sale in December.

\* For the first time in the history of the Games, the results of the competitions will be written up on indicator boards with electrically controlled luminous letters. These will announce the results to the spectators as they happen.

\* Olympic Posters: the Organising Committee has sent out more than 25,000 envelopes containing information on a poster competition open to African artists. The announcement of this competition by the President, Willi DAUME, in November 1970 in Dakar, has been greeted with enthusiasm in the Continent of Africa.

In May, a jury of 13 people, of which four will be Africans, will present to the winners the seven prizes, each of a value between DM 1,000 and DM 6,000. The best design will be reproduced as the official poster in Africa. In addition, a selection of the designs received will be on view to the public in the form of an exhibition.
