General view of the Exhibition.

This exhibition, spread through four rooms, "was a great success. Its principal theme: Munich, was illustrated by a 1/1000 scale model of the sports installations, photographs of the work in hand and posters published to commemorate the Games of the XXth Olympiad. A cinema room, where films of Munich and the German athletes in training were shown, completed the exhibition. Finally, a hundred photographs and various documents retraced the history of the Olympic Games of the modern era, from Athens to Mexico.

A large number of these documents had been lent by Dr. H.C. WU-WEN-CHUNG of the Institute of Physical Education of the Taipei National University, who has a very important collection of sporting souvenirs, as much on ancient and modern China as on the Olympic Games.
