

International Olympic Academy

In number 60/61 of the *Olympic Review* we printed the programme for the 13th Session of the International Olympic Academy in Olympia.

This Session will not be the only one, as under the guidance of the President, Mr Epaminondas Petralias, the IOA will welcome, in co-operation with the Hellenic Olympic Committee, five other important Sessions:

– Session of the “International Weightlifting Federation” from 23rd June to 1st July: seminar of weightlifting coaches from Mediterranean countries.

– Seminar of international basketball coaches, under the direction of the “Fédération Internationale de Basketball Amateur” from 30th June to 7th July.

– Session of the IOA from 13th to 29th July. The theme is the contribution of the

intellectual world to the Olympic movement.

– The first international Session of high-class cycling instructors from 30th July to 6th August, the theme being “the spreading of the Olympic spirit”.

– Finally, the fourth Session of Greek teachers from 6th to 11th August.

Mount Cronion will thus see an unusual number of visitors, as all these Congresses and Seminars will bring together about 600 people who will be there to draw from the original source of Olympism the ideas and the strength essential to the modern movement.

Finally, we must stress that the 9th Congress of Sports Medicine of Greco-latin countries will be held in Athens from 9th to 15th September.

The participants to the Session in front of the Academy.
