

● Everything seems to be progressing well in Innsbruck with regard to the preparation for the XIth Winter Games. The report presented to the Session by Messrs. Fred Sinowatz, President, Karl Heinz Klee, Secretary General, Bertl Neumann, Press Officer, and Rudolf Nemetschke, IOC member, was accepted in its entirety.

Only the question of accommodation charges raised some reactions, and a closer examination of this matter has been requested.

● The televised broadcasting of the XIth Winter Games interests a great many countries. The most recent agreement has been concluded between the Organising Committee and the NHK, the Japanese television company, with the IOC's consent.
