

**Dr. Günther Sabetzki,
President of the International Ice Hockey Federation**

“Winter Games without ice hockey is like bacon without eggs. Therefore we look forward to these XIIth Winter Games in Innsbruck with an equal degree of interest as for our own world championships, even though this time a few prominent teams will not be taking part. In the future therefore, we must think it over whether we should continue holding world championships in Olympic year or, rather, concentrate ourselves on Olympia. For it is precisely the next Winter Games in which reparticipation by Canada is forthcoming, which fact must be valued as a real enrichment. Nevertheless it is participation in the games which merits topmost importance now and at this

moment we offer congratulations to the winner and thanks to those who placed second, etc., from all of us. However, my personal wish in that the Winter Games become a genuine festival for all men and women exercising winter sports, and that they provide still closer ties for the latter to be one big family.”
