

SARAJEVO 1984

Return to Sarajevo

Whilst all eyes are already turned towards summer and the forthcoming festival it will hold, let us gaze back one last upon the XIVth Winter Games :

In an article which arrived too late to be published in our previous issue, Gunther Sabetzki, President of the International Ice Hockey Federation, describes his enthusiasm over the ice hockey matches he attended in Sarajevo.

The anthology which follows could be entitled "First Places": the important people of this world meet those whose ultimate reward is to enter history by adding their names to the long list of the kings of sport.

We come across this history once again throughout the two hundred and eight pages of the "Sarajevo 84" official book which provides an image of all of the competitions and the atmosphere of these Games.

Zetra stadium
