

THE WINTER GAMES : CHANGE OF DATES NO CHANGE IN PROGRAMME

The 91st Session modified the cycle of the Winter Games, moving them to the middle of the Olympiad. The XVllth Winter Games will take place in 1994 and not in 1996. This modification will have no effect on the Olympic winter programme, which will remain devoted exclusively to winter sports practised on snow and ice, as stipulated in the "Charter". Comments on possible inclusion of individual or team sports practised indoors are therefore totally unfounded.
