

SERVICES PROVIDED BY A.S.S.H.

One of the aims of A.S.S.H. is to foster sports history scholarship. To this end we would like to formalise an activity already undertaken by many of our members and offer the following services:

- commenting on research projects and book plans
- assisting in the preparation of bibliographies and reading lists
- reading manuscripts
- assisting clubs and associations to recruit historians
- research assistance of a minor nature such as supplying readily available information, tracing references etc.
- advising publishers on manuscripts and markets

It is hoped that most members approached for help would offer their services free to other members of A.S.S.H., but a fee could be charged to non-members or for any substantial assistance. This would be a matter for the parties to agree upon.

Initial enquiries should be directed to
