Dear ASSH members,

I am an expat Aussie at Harvard, working on a research project on trends in social capital" in Australia over the twentieth century. As part of this, I'm interested in statistics on participation in sports, and attendance at sporting events. However, all I've managed to find so far is data on attendance at AFL (1900-1980), and cricket (again, 1900-1980).

If anyone has attendance figures for cricket and AFL for 1980-2002, or statistics for other sports over 1900-2002, I'd be most grateful if you could email me at andrew_leigh@ksq.harvard.edu.

Kind regards

Andrew Leigh
