

## Always Paid Larry

“I had Larry McLean upon my team many years ago,” says a minor league manager, who is temporarily in our city. “It was a troublous season, money was scarce, and it was awful to hustle in enough cash to pay off all the players. Be it noted, though, that Mr. McLean always got his salary, got it early, and got it all. When he came toward me, with all his length uplifted, and gazed at me with his pleading hands outstretched towards my goozle, I always paid him first and paid him all he had coming. Wonderful how persuasive he was and how people just hated to shortchange him.”
