Five or more goals in an Olympic ice hockey game has been achieved 30 times. Most of these occurred in 1920 and 1924 when the United States and Canada were routing teams. Nobody has scored 7 goals since 1924. Five or six goals in a game has been achieved 9 times since then, 3 times in 1928. Since 1980, the following are the individuals who have managed at least a "hat trick" (3 or more goals in a game) in an Olympic ice hockey game.
