

## **OLYMPIC WORLD-WIDE WEB SITES**

The following web sites are now available on the Internet. These have been provided by the excellent home page set up by the Centre d'Estudis Olímpics i de l'Esport at the Autonomous University of Barcelona by Miguel de Moragas i Spà. Miguel informed me of their home page and its listing of Olympic websites when we met at Atlanta. Its an excellent resource and you should visit it if you have web access. It is listed as "The Olympic Information Highway" and can be accessed via <http://blues.uab.es/olympic.studies/>

Please keep us informed of any other Olympic-related web sites for future publication.
