## Statistics of the Olympic Games

By Wolf Lyberg

Editor's Note: ISOH doyen Wolf Lyberg from Stockholm, Sweden, presents the International Society of Olympic Historians with the complete statistics on the participation of athletes in the Games of the XXVIIth Olympiad, Sydney, 2000. For the statistics mentioned under number 1, he worked together with ISOH president Bill Mallon and they came to the same final figures,

which are henceforth the official ones used by the IOC.

Lyberg made four different statistical lists:

1. The participation per National Olympic Committee, by Continents.
2. The continental participation by sports.
3. The list with Olympic starts per individual athlete.
4. The list with tickets sold per sport.

1. The Participation per National Olympic Committee (first figure total participation; second figure the amount of women competitors):
