

Announcements

The Sporting News Publishing Company and University Microfilms International have recently concluded an agreement to reproduce in microform and distribute the complete run of *The Sporting News* dating from 1886. This contract supplements an earlier arrangement under which UMI had authority to film the paper beginning with the 1982 issues.

Persons interested in doing research in *The Sporting News* should have their library acquisitions staff write to UMI. Further information may also be obtained from Steven Gietschier, Director of Historical Records, *The Sporting News*, P.O. Box 56, St. Louis, MO 63166.
