
Time and Site Report

NASSH Members:

I think we've been particularly fortunate in our sites (Columbus, London, Ontario, and Boston). The feeling of many members is that we continue to think about having our meetings on "friendly" college campuses. Consequently, I have contacted an especially friendly school (and faculty) at the University of Windsor and they have agreed to host the 1977 convention . . . but only with your permission. If the site and time are satisfactory to you (Windsor's Mike Salter likes the month of May, 1977), I shall then propose the following future sites:

University of Windsor	- 1977
San Diego State University	- 1978
Banff, Alberta	- 1979
The Pennsylvania State University or	
University of Illinois	- 1980
University of Texas	- 1981
University of Victoria, British Columbia	- 1982

We welcome your comments and suggestions regarding time, site, and people to contact regarding this important concern.

Respectfully submitted,
John Lucas
