

Membership Committee Report

The Membership Committee was actively involved in providing names of potential members to the Secretary-Treasurer in the early development of NASSH. Because of the nature of the responsibilities with the Membership Committee, the current committee members recommend the following:

1. That the Membership Committee, as such, be dissolved.
2. That each NASSH member be charged with membership responsibilities.

RATIONALE: It is our belief that additional memberships in NASSH can best be sought by individual members, through personal and professional association and “word-of-mouth” contacts. This would avoid duplication of effort and materials, since all inquiries would be directed to the Secretary-Treasurer. Further, we believe that contacts by members personalize the invitation to membership and the numbers who might be reached could far exceed those of any small committee.

Respectfully submitted,
Mary Keyes
Mary L. Remley, Chairperson
