
TIME AND SITE REPORT

Past convention managers are thanked . once again. Present convention coordinator, Marvin Eyer and his staff deserve accolades! Professor Mary Lou LeCompte of the University of Texas wrote me recently "not to worry; plans are well underway for a 1979 NASSH meeting in Austin . . All is in order." She will make a detailed report at this year's membership business meeting. Professor Jean Leiper (Calgary University) and I have been corresponding frequently enough so that I can assure the membership that a well-planned, exciting 1980 program is being arranged at the world-famous Banff, Alberta, Canada Recreation Center.

Looking further down the road . . . I'm delighted to say that Professor Mary E. Keyes of McMaster University, Hamilton, Ontario, Canada, has accepted the responsibility of working out a NASSH Convention plan for the Spring of 1981. She will be unable to share with us in person (at this 1978 meeting) detailed plans, but I plan to be in constant communication with her. An added serendipity is the recent letter from Professor Don Mrozek that there exists a distinct possibility that his school - Kansas State University in Manhattan, Kansas - will host the 1982 NASSH meeting. Details are included in an accompanying envelope . . . and Dr. Mrozek will explain his university's position at this week's business meeting.

Respectfully submitted.
John Lucas
