# Time and Site Report

Knowing the kind of work done by Jean Leiper regarding preparations for the 1980 NASSH meeting, I should like to, publicly and in advance of the convention, thank her for all the work of the previous twelve months . . . and more.

McMaster University and Professor Mary Keyes look forward to welcoming us next year for the '81 NASSH meeting in Hamilton, Ontario. The 1982 meeting, approved by the membership, is in the capable hands of Professor Donald J. Mrozek of Kansas State University, Manhattan, Kansas.

Professor Maxine Grace Hunter of The Pennsylvania State University, Mont Alto Branch Campus (Mt. Alto, PA) has graciously offered her "jewel" Campus and facility for a 1983 NASSH meeting. Please be prepared to listen to her presentation, to ask questions, to entertain bids from other members/institutions, and then to vote on the 1983 time and site.

In order to give greater opportunity for all the membership to have input regarding time and site of future professional meetings of this organization, the following members have been added to the committee:

Gary Bowie, Univ. Lethbridge, Lethbridge, Alberta, Canada, TIK 3M4, Department of Physical Education

Mary Lou LeCompte, 5700 Cameron Rd., #230, Austin, Texas 78723

Reet Howell, Univ. Ottawa, Ottawa, Ontario, Canada, KIN 6N5, School of Human Kinetics

Please write/speak to one or any of us regarding the important matter of NASSH time and site. Thanks.

Respectfully submitted,  
John Lucas  
Chairman
