

# Membership Report

This past year the membership committee completed three projects:

1. Letters were sent to NASSH members whose college or university library were not already institutional members of NASSH. These members were asked to encourage their libraries to join NASSH.
2. A campaign to obtain more individual memberships was conducted with the aid of NASSH's Secretary-Treasurer, Ron Smith. Letters were sent to members of the American Alliance of Health, Physical Education and Recreation who had indicated on their membership form an interest in history.
3. Thomas Kames and Joseph King, both members of the committee, sent letters to various organizations (English, sociological, historical) informing them of the Banff Conference and NASSH in general. Tom Kames, also, set up a NASSH display at the Annual Conference of the Organization of American Historians.

Respectfully submitted,  
Maxine G. Hunter
