

Proceedings Editor's Report

General Comments:

The scope and format of the Eleventh Annual Proceedings generally paralleled those of previous years. Included in the Proceedings were fifty-one (51) conference abstracts, NASSH business reports and the convention book display. I did not list the abstracts in the order in which they were presented at the Mont Alto Conference, but attempted to organize them thematically. I felt it was important to give a complete record of papers read and, therefore, included a section for seven (7) unavailable abstracts.

Problems Encountered:

I generally did not encounter any problems as editor. The Manhattan company who printed the Proceedings was extremely cordial and cooperative in seeing that the project was completed in a reasonable amount of time. In most cases, authors submitted their final abstracts by the deadline I had set down. Of those submitted, very few of them required any substantial editorial changes.

Respectfully Submitted,

David K. Wiggins, Editor
