

SUBMISSION GUIDELINES

Olympika (founded in 1992) is the official peer-reviewed journal of the International Centre for Olympic Studies. It invites scholarly papers, research notes, review articles, and other items relating to the historical, sociological, philosophical, and anthropological dimensions of the Olympic Games and the Olympic Movement.

Normally, submissions should contain original research and make a contribution to our understanding of the Olympic Games and the Olympic Movement.

1. Direct all editorial correspondence and/or submissions to:
Nigel B. Crowther, Editor *Olympika*
International Centre for Olympic Studies
Arthur and Sonia Labatt Health Sciences Building
Room 336
London, Ontario, Canada, N6A 5B9
Tel.: (519) 661-4113
Fax.: (519) 661-4148
Email: crowther@uwo.ca
2. Four non-returnable copies of each manuscript should be submitted to the Editor. Since the review process is anonymous, names of authors and their affiliation should appear only on the title/cover page. Care should be taken to ensure, where reasonable, that the author is not identified in the text of the paper. Manuscripts are not normally returned unless return postage is pre-paid.
3. Four copies of an abstract of about 150-200 words should accompany all research papers. The abstract should be on a separate page containing only the title of the article and the abstract itself. It should clearly outline the argument and significance of the paper. This abstract will appear at the beginning of the published text in the journal.
4. Normally, authors should submit manuscripts in English. They should follow the reference, endnote, and bibliographical format utilized in the latest volume of *Olympika*. Additional information is available in the most recent edition of the *Chicago Manual of Style*. The Editors will accept manuscripts employing different formats for initial review. Acceptance for publication, however, will depend upon appropriate stylistic revisions by the authors. A final electronic version is required before publication. More complete style and format instructions will accompany notices of acceptance.
5. Although not guaranteed, it is expected that the review process will take approximately eight to ten weeks from the date of receipt by the Editors.
6. Authors are responsible for obtaining copyright permission before publication for all materials used. Opinions expressed in articles, reviews, and other items remain those of the authors alone.
