MODEL 1905 .32 AND .35 CALIBER SELF-LOADING RIFLES

Standard Rifle 22 inch Round Barrel, Plain Walnut Stock and Forearm, not checked. Weight about 7 1/2 pounds. Number of shots 6. List Price \$28.00

**T**HE Winchester Model 1905 Self-Loading Rifle is a hammerless take-down, made in .32 and .35 calibers. It is the first of the Self-Loading type made for center fire ammunition, the cartridges it handles being of the modern smokeless powder type, using metal patched bullets. The .32 caliber shoots a 165-grain bullet and gives a velocity of 1400 foot seconds and a penetration of 1 1/8 inch dry pine boards with a metal patched soft point bullet. The .35 caliber shoots a 180-grain bullet and gives a velocity of 1400 foot seconds and a penetration of 1 1/8 inch dry pine boards with a metal patched soft point bullet. As these figures show, both cartridges give excellent penetration, and with metal patched soft point bullets they have great shocking effect on animal tissue. As its name indicates, this rifle is self-loading. The recoil of the exploded cartridge ejects the empty shell, cocks the hammer and feeds a fresh cartridge from the magazine into the chamber, leaving the rifle ready to be shot upon the operators pulling the trigger. The magazine is of the box type and holds five cartridges. By inserting a cartridge in the chamber before placing the loaded magazine in the gun, the operator has six shots at his disposal. The stock is 14 inches long and finished with a rubber butt-plate; drop at comb 1 3/8 inches; drop at heel, 2 1/4 inches; length of gun over all, 40 inches.

Send name and address on a postal for a circular fully describing this rifle.

### TRAP AT EBENSBURG.

#### A Successful Two-Days' Shoot Held in Cambria County.

Ebensburg, Pa., Aug. 28.—The much-talked-of shoot of the local gun club took place last Thursday and Friday and was much enjoyed by all participants, as well as large crowds of admiring witnesses of the sport. The first day was a beautiful one, but Friday brought rain and high wind for a time and was not so auspicious, although fairly good scores were made. During the two days numbers of shooters from various points dropped in and were much pleased with the grounds and arrangements made for their reception.

The shooting of Henry H. Stevens, of Roselle, N. J., representing the U. M. C. Co. and the Remington Arms Co., was exceptionally good, and he was closely followed by D. Lane, of Ebensburg, and Hicks, of Tyrone, and Nisley, of Johnstown. Following are the scores for the two days:

Events 12, 13, 14 and 15 not given here but are included in totals.

FIRST DAY, AUGUST 24.

### Trap at Richmond.

Richmond, Va., Sept. 2.—There was a good bunch of gun artists at the regular shoot of the Richmond Gun Club last Saturday. The scores suffered very materially in the first string of fifty targets, owing to the high wind, after which there was a lull in the wind, and with renewed enthusiasm, some good shooting was done. The ground record of a squad of six shooters was broken as only twelve targets in 150 were lost. "Old Virginia" won the high gun medal on 45 out of 50, closely followed by Lowry, Martin and Anderson, with 43. Taylor and Baker, with handicaps, tied for the Anthony medal, the latter winning out by a close margin.

At the annual convention of florists, which met in Washington last week,

there was a championship race at 50 targets. Mr. H. Brown, of the Richmond Gun Club, won a silver loving cup, by breaking 45 out of 50.
