

# Music in the Air at Syracuse

**T**HERE was music in the air at the New York State Shoot—winning Winchester music—when C. G. Blandford won the first prize in the Merchandise Events, a \$350.00 piano, shooting a Winchester Repeating Shotgun. To give the loud pedal a chance, Frank S. Wright rendered the heavy music of the shoot, winning the Hurlbut W. Smith cup, emblematic of the Amateur Individual Championship of the State. For an encore, he performed as few can, "How to Beat the Professionals, or Winning High General and High Amateur Averages at the Same Time," his melodious score being 478 out of 500 targets. Of course, he shot Winchester "Leader" Shells and a Winchester Repeating Shotgun, the combination that is tuned to win. If you want to shoot true to key and make a score whose harmony will please your pride, always shoot

**NOTES.**  
D. A. Hanagan also shot at 50, breaking 35 in the two frames.  
Young was high in event No. 1 with 92 actual broken birds, Cutler, Quade and Johnston being next in line respectively.

The weather on June 4 was quite cool and threatening, which no doubt kept many away who would have come out if the weather was more pleasant.

With added handicaps Cutler tops the list with 96. Johnston and Dr. Bosler tie for second on 95, and Young, Quade, Leffingwell and Carroll all landing in third place with 94.

Young made 25 straight in event No. 2, which gave him a little better than 93% per cent. for the day. Ellett also made 25 straight and was going along at a 93% per cent. clip when he had to quit.

Among the new faces at our traps were W. P. Northcott, W. F. George, Choate, Griffiths and Nicholas, the first two giving a very good account of themselves in the number of birds broken. The last three named are beginners who will soon be able to break their share after some practice.

Among the shooters were several old-timers who have not been on our firing line for quite a while and whom we expect to see more often from now on, notably Fred Ellett, Leffingwell and McKinnon. Ellett had to quit after his third frame on account of getting a powder burn in his left eye.

On June 2 Mrs. Fetherston and Mrs. Taggart came out for a few rounds at the traps, and while the sun was shining when they left home it started to rain just as they were ready to shoot, but they were game, Mrs. Fetherston getting 18, 17 and 21, while Mrs. Taggart made it 12 and 14 with her 20-gauge.

On Wednesday, June 1, Mr. R. McCourt, of Iron River, Mich., took a run out to have a look at our grounds and we induced him to shoot several rounds at the traps. He broke 36 x 50, and this with a gun that did not fit him at all. On his way back from Oregon he will have his own gun and then we will expect to see him do better than 90 per cent.

**NOTES.**  
Caster is another one who generally lands well along in the 90's.  
Ellett had a total of 95, while Shrigley, Anderson and Kausche tied on 94.  
Darlington was not shooting in his usual good form, as he had a severe headache.  
Wm. Bredfeldt, of the Avondale Club, who comes over to shoot with us quite often, was going at a 93% per cent. clip.  
Heath and Antoine also had a good race on in their last frame, Heath running out his string straight and winning by one bird.  
Cushing and Clancy were tied with 188 x 200, so

they shot it off. Cushing landing his 25 straight, while Clancy lost one bird in his frame.  
By noon the sky cleared off and we had a fine afternoon for shooting, quite a number coming out, although many of our boys were taking in out-of-town shoots.  
While the weather was cloudy and threatening to rain all morning Heath, Antoine, Darlington, Cushing and Clancy took a run over to our park for a little practice, and it proved to be a fine morning for target shooting.  
Shaw and Humpfer were shooting in fine form, each breaking 96 x 100 in event No. 1, and with their added handicap their totals came up to 98 each. Caster is next in line with 97, Fetherston and F. Taggart each getting 96.
