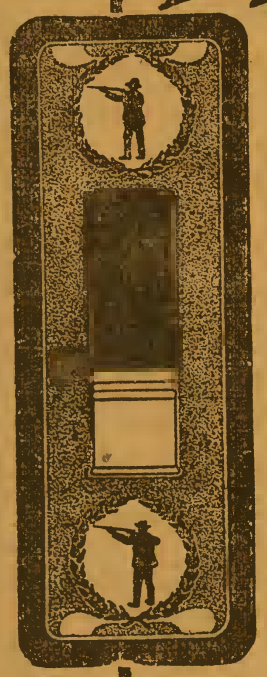
WINCHESTER

Shotguns and Shotgun Shells



NOWHERE are the merits of those things necessary for and appertaining to shooting better known or more carefully weighed than in Maryland. That is why, at the Tenth Annual Cecil County Tournament, held at Rising Sun, November 30th and December 1st, 26 of the 28 shooters who attended shot Winchester Loaded Shells, "Leader" and "Repeater," and a goodly number used Winchester Repeating Shotguns.

Among the amateurs J. W. Ewing was high for the entire shoot and won the 100-bird event with Winchester Shells and a Winchester Repeating Shotgun. C. O. Williams, who won the Cecil County Championship, and J. S. Gifford, who was first in the Merchandise event, both used Winchester Shells. H. Alexander, C. O. Williams, J. S. Gifford and J. H. Anderson, who won second, third, fourth and fifth amateur averages respectively, all used Winchester Shells. L. S. German was high professional, shooting Winchester Shells, and H. S. Welles and H. L. Worthington, won second and third high professional averages respectively, both shooting Winchester Shells and Winchester Repeating Shotguns.

This record goes to show that men who are well posted and after the best that there is in guns and ammunition, wisely pin their faith to Winchester shotguns and Winchester Shells, the Red "W" Brand.
