TOURNAMENT Gun

Designed Especially For Trap Shooting---12 Gauge Hammerless

This grade of the Winchester Model 1912 shotgun has been worked out with a great deal of thought and care, to make it meet trap shooters' ideas. It has a 30-inch Nickel steel barrel with raised matted rib, and shoots a fine pattern. The handsome, oil-finished stock of selected walnut has a well-shaped checked grip. The slide handle is also checked. Length of pull is 14 inches, drop at comb 1 9-16 inches, and drop at heel 1 3-4 inches. The comb is heavy and rounding, which is a help to quick and accurate sighting. The Tournament gun weighs about 7 1/2 pounds, which is just right for trap shooting. The list price is only \$45.00, and the retail price is less.

The 12 gauge Model 1912 repeater is also furnished in TRAP grade, listing at \$55.00, and in PIGEON grade, listing at \$105.00. For further details of these—"The Most Perfect Repeaters"—ask your dealer, or send for circular to the

Pittsburgh, Pa., March 21.—Intense interest is being displayed in the semi-monthly spoon shoots of the Herron Hill Gun Club. The affair held on their grounds on Davis Island today was one of the most successful of the series, there being 32 lovers of the shotgun present. The honors of the day went to S. M. Crothers, his score of 49x50 taking Class A spoon. F. D. Smith, with 41x50, took home Class B spoon. The prize in Class C resulted in a tie between H. E. Kohlmeier, C. W. Crider and Dr. McCready, the latter gentleman forfeiting his chances by leaving the grounds before the shoot-off, each breaking 37x50. Kohlmeier won the shoot-off. The Class D spoon was also tied by H. E. Young, Dale Bakewell, W. H. Denman and W. A. Staving. Pop Denman got tired hanging around and did not shoot off. H. E. Young was successful in downing his two opponents, winning from Staving by one target. The scores follow:
