TOURNAMENT Gun

Designed Especially For Trap Shooting---12 Gauge Hammerless

This grade of the Winchester Model 1912 shotgun has been worked out with a great deal of thought and care, to make it meet trap shooters' ideas. It has a 30-inch Nickel steel barrel with raised matted rib, and shoots a fine pattern. The handsome, oil-finished stock of selected walnut has a well-shaped checked grip. The slide handle is also checked. Length of pull is 14 inches, drop at comb 1 9-16 inches, and drop at heel 1 3-4 inches. The comb is heavy and rounding, which is a help to quick and accurate sighting. The Tournament gun weighs about 7 1/2 pounds, which is just right for trap shooting. The list price is only \$45.00, and the retail price is less.

The 12 gauge Model 1912 repeater is also furnished in TRAP grade, listing at \$55.00, and in PIGEON grade, listing at \$105.00. For further details of these—"The Most Perfect Repeaters"—ask your dealer, or send for circular to the
