95 Out of 100 from 21 Yards—The High Score at Oklahoma City Made with a WINCHESTER

Repeating Shotgun and Loaded Shells

THIS was the score that outshone all others and set shooters a-talking at the Southwestern Handicap Tournament, held at Oklahoma City, April 14-16th. It also won the preliminary Handicap for R. A. King, of Delta, Colo., the man who made it. Such a score by an amateur, from such a long mark, in such a big tournament, shows great skill and nerve, and the possibilities of the most reliable gun and shells.

Winchester shotguns and shells are that kind. Their superiority was further demonstrated by the High Professional score of 94 x 100 from 22 yards made with them in the Preliminary Handicap by C. G. Spencer.

Because of their quality, which makes such high class shooting possible, Winchester guns and ammunition are rightly considered the "Leaders of the World."

THERE CAN BE BUT ONE BEST—WINCHESTER IS THAT ONE
