

The Association of Cricket Statisticians, *Western Australian Cricketers 1892-1983*. The A.C.S., Derby, 1983. Maps, stats., pp.39. \$2.50 paper. Available from Roger Page, 55 Tarcoola Drive, Yallambie, 3085.

This is another very useful reference booklet published by the Association which contains a register (birth, death and club details) and career records of all cricketers who appeared in first class matches for Western Australia between 1892-93 and 1982-83. The Association has now published booklets for five Australian states with only the South Australian volume outstanding. When the final booklet appears consideration might be given to publishing the six volumes in corrected form as one book. Other sports would benefit from similar volumes.
