

BOOK NOTES

James Lawton, *The All American War Game*. Blackwell, Oxford, 1984.
Illus., glossaries. pp.153. \$19.95.

This impressionistic collage of the world of American football, by journalist James Lawton, is written in a popular style and has some good sections (probably too elementary for the specialist) on themes such as the role of the quarterback and the 'black warrior'. A book for the general public, rather than the scholar. However, Channel 9 insomniacs might well appreciate the glossaries of major plays and players.
